

point in their season was a narrow two point loss to Big 12 conference power Texas Tech. With renewed confidence the Cardinals went on a tear winning 13 out of their next 14 games, propelling them to the regular season conference title.

On behalf of the entire Second Congressional District of Texas I would like to commend Lamar University Men's Basketball team hard fought season and congratulate them on a well deserved Conference Title.

And that's just the way it is.

#### EARMARK DECLARATION

##### HON. JIM McCRERY

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 21, 2008*

Mr. McCRERY. Madam Speaker, I submit the following:

Requesting Member: Congressman JIM McCRERY (LA-04).

Bill Number: H.R. 5658, FY2009 National Defense Authorization Act.

Account: Research and Development, Air Force.

Legal Name of Requesting Entity: Distributed Infinity, Inc.

Address of Requesting Entity: 1382 Quartz Mountain Drive, Larkspur, CO 80118.

Description of Request: This \$3M authorization authorizes appropriations for continued research and development of the Cybercraft initiative, a cyber security utility that will ensure secure communications between warfighters over computer networks. Research is presently underway on Cybercraft at the Air Force Research Laboratory, Rome NY. Project is supported by the Air Force Cyberspace Command (P), Barksdale Air Force Base, Bossier City, LA.

#### EARMARK DECLARATION

##### HON. DON YOUNG

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 21, 2008*

Mr. YOUNG of Alaska. Madam Speaker, I submit the following:

Bill Number: H.R. 5658: Army, RDT&E, Line 177, PE #0305208A (Distributed Common Ground/Surface Systems).

Legal name and address of entity receiving earmark: Battle Command Battle Lab, Mr. Jason Denno, Deputy Director, Fort Huachuca, AZ 85613.

Description of how the money will be spent and why the use of federal taxpayer funding is justified: The Constant Look system is a prototype biometric sensing capability developed for the U.S. Army to support MOUT (military operations in urbanized terrain). Its unique stand-off capability gives users an ability to support surveillance and special operations remotely. User comments from several demonstration tests included requests for enhancements to improve usability and extend the capability of the system in terms of what can be collected. The Constant Look Operational Support Environment (CLOSE) will provide that additional functionality by leveraging several proven off-the-shelf technologies—a stand-off digital col-

lection system and additional digital signal processing (DSP) to extract other types of biometric signatures.

The U.S. Army's ISR Battle Command Battle Lab at Fort Huachuca (BCBL-H)—responding to user requests—has developed and tested a stand-off biometric sensor system that allows traditional and special operations units to conduct surveillance and identify potential hostiles from a safe distance with a low probability of detection. To date, the majority of the effort on Constant Look has focused on the core collection system technology and the user interface has not kept pace with available commercial technology. CLOSE will remedy that by leveraging millions of dollars in commercial investment and integrating that investment into the Constant Look baseline.

CLOSE will provide CL users with a rapid capability to collect and model surveillance target facilities, including ingress and egress, from the same stand-off range as the CL collection system itself. Secondly, it will extend the DSP capability resident within the CL baseline to extract other types of Indications and Warning (I&W) data.

Description of matching funds: Not applicable.

Authorized Amount: \$4,000,000.

Project Name: Constant Look Operational Support Environment (CLOSE).

Funding Source: Army, RDT&E, Line 177, PE #0305208A (Distributed Common Ground/Surface Systems).

Detailed Financial Plan for Earmark: \$200,000, System Engineering; \$500,000, Immersive Camera System; \$900,000, Interior Tactical Blue Force Tracking, Sense-Thru-The-Wall Radar; \$1,500,000, Improvements; \$650,000, Biometric Databasing; \$250,000, Training, Testing, Delivery. Total: \$4,000,000.

#### EARMARK DECLARATION

##### HON. KEVIN MCCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 21, 2008*

Mr. MCCARTHY of California. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure and certification information for two project authorization requests that I made and which were included within the text of H.R. 5658, the "Duncan Hunter Defense Authorization Act for Fiscal Year 2009."

Requesting Member: Congressman KEVIN MCCARTHY.

Bill Number: H.R. 5658.

Account: Military Construction, Air Force.

Project Amount: \$6,000,000.

Legal Name of Requesting Entity: Edwards Air Force Base.

Address of Requesting Entity: 1 S. Rosamond Blvd., Edwards AFB, CA, USA.

Description of Request: This funding would complete construction of the main base runway at Edwards Air Force Base, CA. The funding will be used to complete paved shoulders on the runway and account for extra costs in the overall runway replacement project from items such as the stabilization of over 41,000 cubic yards of both unsuitable and unstable soil.

The main base runway, which supports almost every flight operation at Edwards Air

Force Base, as well as space shuttle landings when necessary, is over 50 years old and is rapidly degrading as a result of Alkali-Silica Reaction (ASR), a reaction between the cement and the aggregate that creates map cracking, scaling and spalling of the concrete. Emergency Foreign Object Damage (FOD) repairs have forced runway closures affecting 10 to 15 flights for each closure. No other runways at Edwards AFB can safely support the current and projected test operations without significant test mission delays, and temporary relocation of these missions is not feasible; however, many of the current and planned test missions can be supported by a temporary runway.

This project was programmed by the Air Force in 2003 for FY06, and was incrementally funded over 3 years (FY06, FY07 and FY08). After the project was programmed, the cost of construction materials escalated dramatically, eliminating all management reserve and resulting in a reduction in the planned scope of the project. Providing the final \$6,000,000 in FY09 will complete the project as originally scoped, avoid contractor demobilization and remobilization, and avoid reconstitution of the temporary runway to support this work, saving the government over \$4,000,000 in cost avoidance on the temporary runway alone.

Requesting Member: Congressman KEVIN MCCARTHY.

Bill Number: H.R. 5658.

Account: Research Development Test and Evaluation, Air Force.

Project Amount: \$3,000,000.

Legal Name of Requesting Entity: Aerojet-General Corporation.

Address of Requesting Entity: P.O. Box 13222, Sacramento, CA 95813-6000, USA

Description of Request: This funding authorization will be used to return the Hydrocarbon Boost Technology Demonstrator program to its initial programmed funding level. This critical, next-generation liquid rocket engine development effort run by the Air Force Research Laboratory at Edwards Air Force Base will not only provide the highest performing hydrocarbon engines ever developed in the United States, but also will provide higher operability, lower costs and greater safety with higher reliability than any liquid booster engine ever made in the U.S. and perhaps the world. A match is not required for defense research projects, but I was informed that during the past eight years, Aerojet has invested approximately \$30 million in internal research and development funding on this technology and intends continued support in FY09.

#### FORMAL DECLARATION

##### HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 21, 2008*

Mr. ROGERS of Kentucky. Madam Speaker, I submit the following:

Requesting Member: Congressman HAROLD ROGERS.

Bill Number: H.R. 5658.

Account: MILCON, Army National Guard.

Legal Name of Requesting Entity: Kentucky Department of Military Affairs.

Address of Requesting Entity: Boone National Guard Center, 100 Minuteman Parkway, Frankfort, Kentucky 40601.
